NOTICE TO LOCAL RESIDENTS AND BUSINESSES

Local Community Consultation Update

Last year, as part of community consultation associated with a review of the limit on the number of events over 25,000, local residents were able to provide feedback on a range of Stadium issues and operations.

We have been working with Queensland Police, the Brisbane City Council, the State Government, local businesses and Sinclair Knight Merz, the Stadium's transport and traffic consultants, to make some positive changes for you.

The full list of issues, responses and status of actions are now on the Suncorp Stadium website but the following are some of the key initiatives already undertaken to date:

- The limousine rank in Blaxland Street will be relocated to Parkview and Mayneview Streets. Council is in the process of producing new signage ahead of this change with the aim being having the new arrangements in place by the end of March.
- A trial to remove the right turn restrictions from Coronation Drive to the William Jolly Bridge on event days will also be undertaken from the first major event (Broncos v Cowboys) on Friday 9 March.The results of that trial will determine whether that restriction is removed permanently.
- The Stadium has established an SMS and email information service to advise you of important event day information such as game times and road closures. The Stadium is also using social media such as Facebook and Twitter to spread the word as far and wide and as quickly as possible. You can follow us on Facebook and Twitter to receive instant updates.
- Brisbane City Council's new permit system includes barcodes which enables enforcement officers to quickly identify those who don't have a legitimate entitlement to park locally on event days.
- Robust Police patrols in Milton and Paddington (including Dowse and Moreton Streets and Haig Road) on event days are helping minimise any inconvenience to residents while a change in deployment times for local post-event patrols is allowing Police to continue one hour longer
- A co-ordinated approach between the Stadium, Council and local traders now operates for post-event local rubbish collection and cleaning, Council "flying squads", more bins and regular litter inspections.

2012 Event Schedule and Event Day Traffic Conditions

A copy of the 2012 Event Schedule is attached for your information.

An updated schedule can always be found on the Stadium website www.suncorpstadium.com.au But if you would like to receive updated schedules electronically, please register your interest by calling us during business hours on 3331 5000 or by emailing info@suncorpstadium.com.au

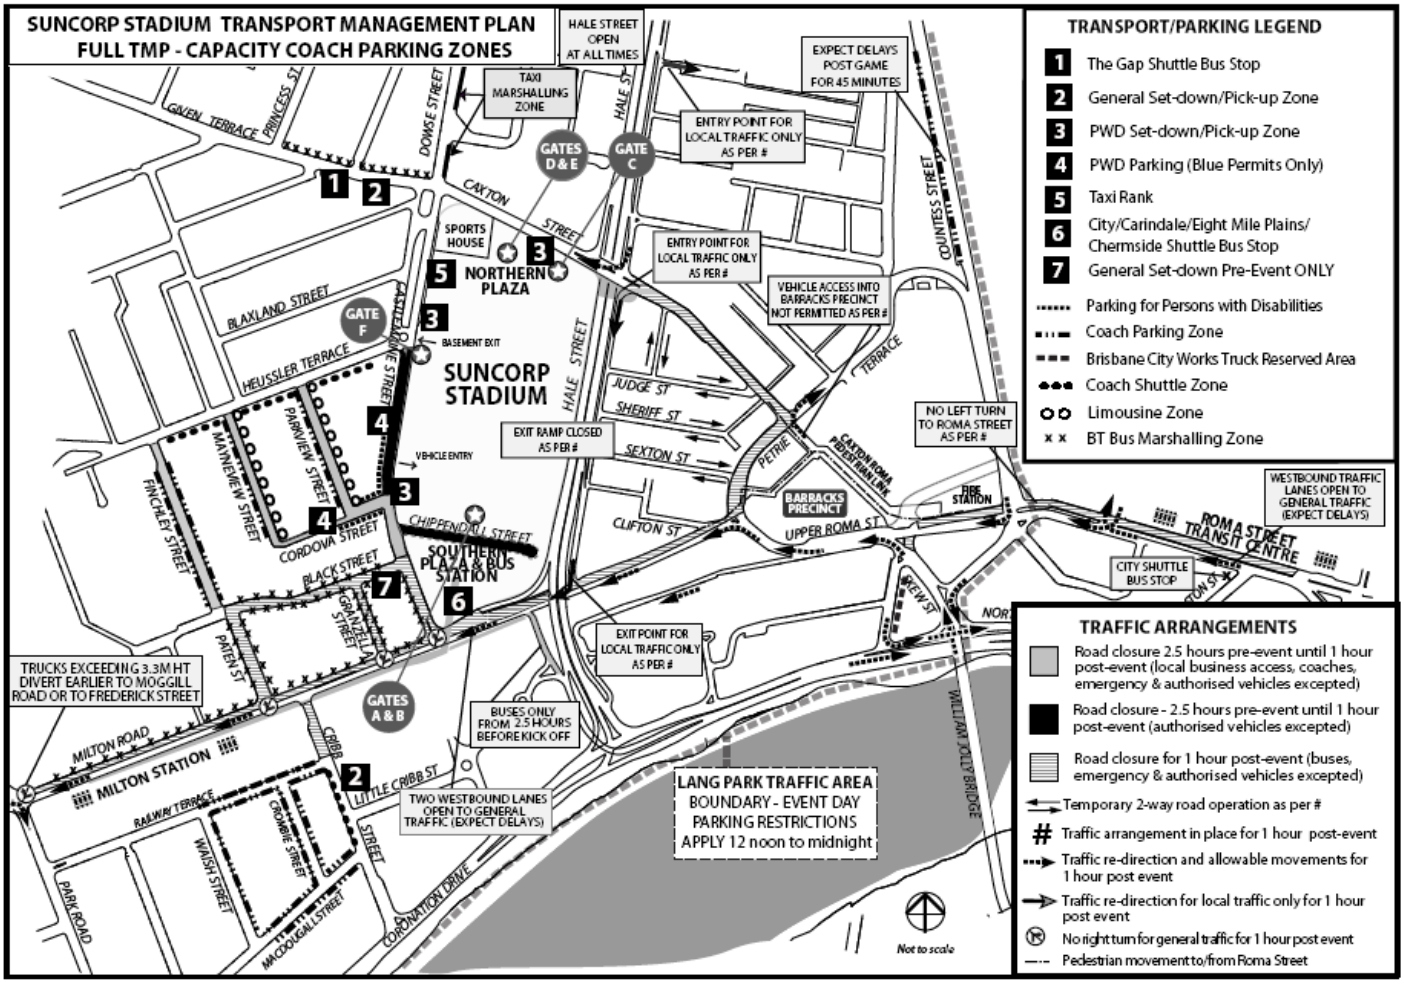
Changes to traffic conditions on event days are primarily to protect access for local residents and businesses and to assist the efficient and safe flow of patrons arriving and departing the Stadium by public transport. Parking restrictions within the Lang Park Traffic Area (unless otherwise signed) commence at 12 noon on event days and apply until 10pm that night. The areas affected are shown on this notice.

Local residents and business traffic requiring access to these areas on event days just need to inform security staff or Police that they intend visiting a residence or business in the area. However, visitors need to remember the 15 minute on-street parking restrictions unless otherwise signed, will apply. For the convenience of businesses, the Brisbane City Council has agreed not to commence parking enforcement until 3 hours before main game kick-off.

If you have any queries on these or any other Stadium issues, please call us on 3331 5000.

Alan Graham
General Manager
SUNCORP STADIUM

17 February 2012



NOTE: The relocation of the limousine rank from Blaxland Street to Parkview and Mayneview Streets as shown on this map, will be effective from the end of March 2012.
